The Ministry of Health (MS) is responsible for health protection and partially for food safety in Romania. The MS prepares draft legislation in the field of food safety and is partially responsible for official controls in the area of food safety. The portfolio of the MS includes novel foods, food supplements, food for populations with special nutritional requirements, food additives, enzymes and flavourings, treatment of food with ionising irradiation, food contact materials as well as mineral water. The MS is also responsible for risk assessments in these areas.
